# Milestones ▶

Over the past 16 years, DSPREAD has grown into a trusted name in the payment solutions industry, reaching businesses worldwide. With over 6 million devices shipped, our innovative products power businesses in over 106 countries and regions. From China to Brazil and Mexico, our journey continues to redefine global success.

## 2009

Founded

## 2011

Launched China's first mPOS

## 2012

Start globalization

## 2016

Become one of the top ten MPOS manufacturers in the world

## 2018

Shipments exceeded 1 million units

## 2019

Shipments exceeded 2 million units

## 2020

Shipments exceeded 2 million units

## 2024

Annual shipments exceeded 6 million unit

# About US ▶

■ For nearly two decades, DSPREAD has been a leading provider of mobile and Smart POS solutions.

■ We create value-driven solutions that improve efficiency and elevate customer experiences, tailored to the unique needs of each business.

■ Our mission is to empower businesses with innovative, reliable payment solutions that foster long-term success and growth.

# Our Values

At DSPREAD, our values shape the way we think, create, and connect. We are committed to making technology more intuitive, empowering businesses through smart innovation, and building relationships that stand the test of time. Every step we take is guided by a passion for progress and a dedication to lasting impact.

## Innovation. Empowerment. Partnership.

We believe that true innovation lies in making complex technologies simpler, more intuitive, and easier for everyone to use.

Innovation that simplifies.

We are dedicated to developing technology that empowers businesses and individuals to achieve more, grow faster, and unlock their full potential.

Technology that empowers.

We focus on building partnerships founded on trust, collaboration, and shared success relationships that grow stronger over time.

Partnerships that last.

# Certifications

Dspread's payment terminals are certified by internationally recognized institutions, ensuring our products meet the highest standards for financial security, electronic payments, and environmental compliance.

# Solutions

## Entertainment

Dspread's Entertainment Solution enables quick and seamless transactions for ticketing and on-site purchases.

## Healthcare & Pharmacy

Dspread's Healthcare & Pharmacy Solution integrates payments, inventory tracking, and prescription management to enhance efficiency and service quality.

## Delivery

Dspread's Delivery Solution improves transactions with a compact, portable design, supporting efficient payments for food delivery and logistics services.

## Food & Beverage

Dspread's F&B Solution simplifies restaurant operations with fast transactions and a seamless payment experience.

# Cloud Services

## Platform-Based Service Capabilities

At the core of our service is a robust and scalable digital infrastructure:  
LARK TMS: Efficient device management across geographies  
LARK KMS: End-to-end key security lifecycle

### ▼ TMS

The first choice for overseas payment, efficient terminal management system.

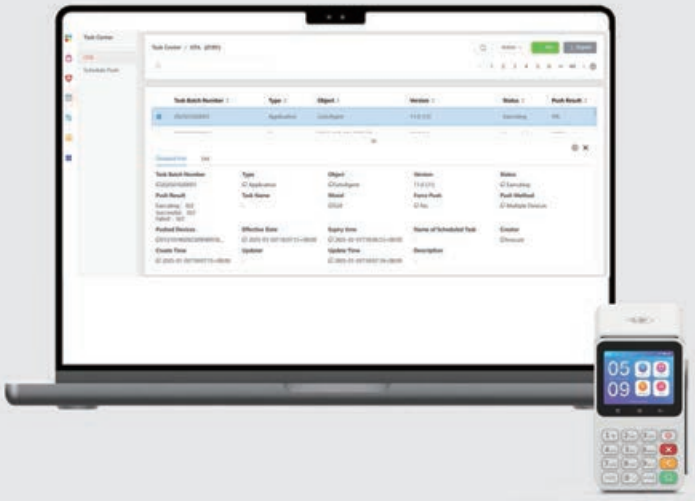

### ▼ KMS

KMS ensures secure, encrypted transactions with seamless cloud-based key management.

# LARK TMS

LARK TMS serves as the central hub for managing your Pos terminals with precision and efficiency. From seamless app deployment to real-time diagnostics and advanced data insights, it empowers industries like finance, logistics, and healthcare to operate smarter faster, and more securely.

## Key Features

### Flexible Deployment

Supports diverse deployment methods, including public cloud, private cloud, and hybrid models. Ensures system stability with data backup, recovery services, and cloud-native scalability.

### Centralized Management

Streamlines terminal operations with one-click batch configurations and zero-touch updates. Integrates a dedicated app store, allowing businesses to customize and manage applications independently.

### Multi-Level Access Control

Offers tiered management for organizational hierarchies, supporting branches and subsidiaries. Ensures secure operations with role-based access control and multi-tenant architecture.

### Real-Time Monitoring & Analytics

Provides comprehensive data insights, including activation trends, firmware updates, and usage statistics. Proactively identifies and resolves issues with advanced monitoring and alert systems.

### Open Integration Ecosystem

Equipped with an Open API framework for seamless integration with third-party systems. Simplifies app development and deployment with a standardized, developer-friendly platform.

## Get Started with LARK TMS in Five Steps

### STEP 1

Contact us to begin your TMS journey.

### STEP 2

Collaborate to evaluate your business requirements.

### STEP 3

Receive a customized plan designed for your operations.

### STEP 4

Deploy and configure your TMS effortlessly.

### STEP 5

Launch your TMS and start optimizing operations.

# LARK KMS

KMS serves as the foundation of secure and intelligent key management, ensuring the generation, distribution, and lifecycle control of cryptographic keys with uncompromising security and efficiency. From seamless remote key injection to real-time monitoring and automated key rotation, it empowers industries like finance, payment processing, and enterprise security to operate with enhanced protection, compliance, and reliability.

## Key Features

### Real-Time Monitoring & Analytics

Live tracking of key injection status, updates, and lifecycle management. Detailed audit logs help businesses meet regulatory compliance requirements. Automated security alerts and anomaly detection for proactive risk mitigation.

### Automated Key Lifecycle Management

Batch key provisioning for large-scale deployments. Supports scheduled key updates and automatic key rotation to enhance security. Task-based key injection and expiration tracking ensure complete control.

### Secure Key Generation & Storage

Supports MKSK (Master Key/Sub Key) and DUKPT (Derived Unique Key Per Transaction) encryption structures. All cryptographic operations, including key generation, encryption, and signing, are performed securely within HSM. Multi-layer authentication and access control to prevent unauthorized key access.

### Seamless Integration with Third-Party Systems

Open APIs and SDKs enable seamless integration with payment gateways, banking networks, and enterprise security infrastructures. Multi-tenant key management allows businesses to set security policies for multiple branches and subsidiaries.

### Remote Key Distribution

Offers tiered management for organizational hierarchies, supporting branches and subsidiaries. Ensures secure operations with role-based access control and multi-tenant architecture.

## Get Started with LARK KMS in Five Steps

### STEP 1

Contact us to begin your secure key management journey.

### STEP 2

Collaborate with our team to evaluate your business security requirements and encryption needs.

### STEP 3

Receive a customized KMS deployment strategy designed to fit your operational and security framework.

### STEP 4

Deploy and configure KMS effortlessly, integrating HSM-based encryption and automated key management into your existing infrastructure.

### STEP 5

Launch your fully secured key management system and start optimizing operations with real-time monitoring, automated updates, and compliance tracking.

# Features

At DSPREAD, we specialize in ODM & OEM services, providing customized and secure payment hardware solutions. From custom POS terminals to full-scale manufacturing, our expertise ensures a seamless transition from design to mass production.

Flexible payment hardware  
customization

Security-first approach  
with global certifications

Full-scale manufacturing  
and R&D capabilities

# Expertise

## Why Partner with DSPREAD for ODM & OEM?

Industry Expertise, Innovation, and Scalable Production

Custom POS & Payment Terminals

Secure & Certified Solutions

Fast Go-To-Market Development

Global Manufacturing & Quality Control

## Tailored to Your Business Needs

Your Brand, Your Innovation, Our Expertise

DSPREAD provides end-to-end customization services, from hardware design to software integration. Our Customization Services Include:

Custom Hardware Development

Device Optimization

Firmware & Security Integration

Modular Expansion

Seamless System Integration

Versatile Industry Applications

Branding & Aesthetics

Our end-to-end customization services help you differentiate your brand in the market while ensuring reliability, security, and compliance with global payment standards.

# Driving Innovation in Payment Technology

## Cutting-Edge R&D for Secure and Intelligent Transactions

At DSPREAD, over 60% of our team is dedicated to research and development, ensuring continuous innovation and technological advancement in the payment industry. Our expertise spans across:

### Next-Generation POS Devices

Fully compliant with ISO 9001/14001 and global payment regulations.

### Comprehensive Testing Procedures

Every device undergoes PCBA testing, functional validation, aging tests, and mechanical stress testing to ensure durability and reliability.

### Rapid Prototyping & Customization

From concept to mass production with accelerated development cycles.

### High-Performance Architecture

Optimized processing power, advanced encryption, and multi-connectivity options.

# Uncompromising Quality & Certified Reliability

## Ensuring Excellence in Every Product

At DSPREAD, quality is embedded in every stage of our production process. We implement strict quality control measures from design to mass production, ensuring that every device meets global security, safety, and performance standards with precision and consistency.

### Industry-Certified Manufacturing

Fully compliant with ISO 9001/14001 and global payment regulations.

### Comprehensive Testing Procedures

Every device undergoes PCBA testing, functional validation, aging tests, and mechanical stress testing to ensure durability and reliability.

### Multi-Phase Quality Assurance

Rigorous EVT, DVT, and PVT validation, including temperature, drop, vibration, and lifespan testing for superior performance.

### Security & Compliance

Secure key management, encryption integrity validation, and fraud prevention measures to meet the highest industry standards.

# Capacity

## Precision Manufacturing for Global Markets

### From Concept to Mass Production, Built for Performance

At DSPREAD, our state-of-the-art manufacturing facilities ensure high-efficiency, high-precision, and large-scale production to meet global payment industry demands. With a factory footprint of over 12,000 square meters and an annual production capacity of over 6 million devices, we provide reliable, scalable, and cost-effective manufacturing solutions.

#### High-Volume Production Capacity

Up to 6 million POS terminals per year, with a maximum daily output of 20,000 units.

#### Advanced Production Lines

Equipped with 14 assembly lines and 4 SMT lines, supporting both mass production and small-batch prototyping.

#### Automated Testing & Quality Assurance

Comprehensive PCBA testing, aging tests, and functional testing before shipment.

# Tech Support

## 24/7 Global Technical Support

Expert Assistance, Anytime, Anywhere

Multilingual customer support, including English and other major global languages.

Remote troubleshooting & diagnostics for fast issue resolution.

Software and firmware updates to maintain security and compliance.

On-site support available for critical technical assistance and maintenance.

### Our commitment extends beyond product delivery

we provide long-term service, continuous performance optimization, and customized support solutions tailored to your business needs.

# Why choose Dspread ?

## Innovation

We design cutting-edge payment solutions that keep you ahead of the game. From mobile POS to smart terminals, we make transactions faster, smarter, and more secure.

## Security

Your payments are protected with the highest industry standards, including PCI PTS certifications. Because trust isn't given—it's earned.

## Reliability

Our devices are built to perform, no matter where your business takes you. Stable, durable, and always ready for action.

## Flexibility

One size doesn't fit all, and we get that. Whether you need Bluetooth, 4G, or Android-based terminals, we've got a solution that fits your needs.
